- Best Video DJ – Nominee '12
- Author of America's 1st Dj Memoir '12
- Official DJ for MTV2/Spike TV/Epix's Bellator

In Spike Lee's movie "Girl 6," the lead character (a phone sex operator) used a number instead of her name to remain anonymous. DJ GIRL 6, on the other hand, is far from anonymous, adopting the moniker because the movie reminded her of the harsh realities behind going "all in" to pursue your dreams. Harsh realities aside, DJ GIRL 6 has fought her way to the cutting edge of DJ techniques and technology, blazing trails for others to follow.

DJ GIRL 6 is a pioneer in the Video DJ movement. She is one of the first commercial video remixers on the scene, period. Her clever and thought-provoking use of wordplay and movie clips won her one of the first video remixer spots on www.crooklynclan.net where she remains the only female to date.

The driving force behind Miss 6's trailblazing is simple – she's damn good! The simple fact is both her production and performances alike are a manifestation of a lifetime of experience. DJ GIRL 6 has been flirting with DJing her entire life, and it's rather obvious that DJing likes what it sees...

At 15 she worked as a hotel maid to buy her then-boyfriend turntables and a mixer. He dumped her the day before his birthday. She then spent the next few weeks scratching "f*ck you" into his parents' answering machine. Want to know where that guy ended up? Kinko's in Redding, CA (we looked it up!). Realizing how naturally DJing came to GIRL 6, she became much more aggressive in her pursuit of her dreams. After 10 years of perfecting her craft, the manner in which she commands the tools at her fingertips has become nothing short of sorcery.

This time-tested talent has won her a place in the hearts of A-list celebrities who began demanding her as their opening act or touring DJ. As anyone can tell from this small taste of her extensive resume, DJ GIRL 6's notoriety is well-earned, as her Vegas-style sets will have you dancing to everything from Elton John to Lil' Jon!
